Round hole.
Round urn vault.
Infinite potential.

Using the Infinity Urn Vault couldn't be easier. After digging an 18" hole with an auger, the grave site is ready for the vault. That's it. No extra digging. No squaring off a round hole to fit a square urn vault.

- Infinity Urn Vaults have a patented sealing rubber gasket that creates a weatherproof seal.

- Engineered to be as strong as concrete at a fraction of the weight — maintaining the integrity of the ground around it.

- Weighing 15 lbs, with the urn in it, allows anyone to easily carry it.

Infinity™ is a trademark of Infinity Urn Vault. Infinity Urn Vault is patent pending.

4 SELECT YOUR PHOTO

The photo you select may be the most important part of the photo printing process. The following helpful tips will guide you through the photo selection process and help ensure your custom photo print is of the utmost quality.

Subject of the Photo

☑ Ensure that the subject is in the middle of the photo to allow for the best possible photo placement within the design template.

☒ If your subject is near the edge of a photo, unbalanced cropping may result.

Attributes to ensure a high-quality photo print:

- Your Loved One/subject of the photo is in focus and near the middle of the photo.
- A photo that is at least 4" x 6" and the subject is large and the primary focus of the image.
- The orientation of the photo matches the chosen design template.
- There is adequate space for cropping – at least a .25 inch around your loved one/subject.

All designs © 1994-2023 Terrybear, LLC. Heart Keepsakes are patent protected. Terrybear and Memory of a Lifetime are registered trademarks of Terrybear, LLC.

Photo Size and Quality

☑ A high resolution photo ensures the highest print quality.

☒ A small photo that requires enlargement to fill the frame, or a photo with low resolution may result in poor print quality.

Photo Orientation

☑ Select a photo that matches the orientation of the design you choose to allow for proper image placement.

☒ A photo that does not match the orientation of the chosen design template may result in unbalanced cropping.

Attributes that may cause a poor-quality photo print:

- Your loved one/subject is out of focus, blurry, or near the edge of the photo.
- A photo that is smaller than 4" x 6" or where the subject of the photo is very small and needs to be enlarged.
- Your loved one/subject of the photo is very small – image quality will be lost when the photo is enlarged to fill the design template.
- The photo is of a group of people – group photos often make it difficult to crop properly. If a group photo must be used, please indicate your loved one.
