Engraving orders are shipped the next business day. Rush orders must be placed by 12:00 pm EST for same day shipping. Final artwork must be approved with color preferences by 2:00 pm EST. Please specify font choice, and fill color with the engraving order.

## Custom Photo Engraving

Please send us your clearest photo(s).

- In an ideal image for engraving, the subjects are clear and brightly lit. The image quality is similar to that of a point-and-shoot or cell phone camera; not professional quality, but everything is in focus and detail is clearly visible. This would result in a beautiful, engraved photo urn.
- Send the original, uncropped, unprocessed photo. When possible.
- If you are scanning your image, please scan at a resolution of 600 dpi or higher.
- Acceptable file formats: .jpg, .png, .gif, .psd, .tif.
- If you are sending a photo from your phone, please do not send phone screenshots. Instead, go to the photos section of the phone and attach it to the email and then forward us the actual (original) photo.
